

RETURN FOR SUTURE REMOVAL IN \_\_\_\_\_ DAYS

## **WOUND CARE FOR BIOPSY**

1. Leave dressing on and do not get it wet for 24 hours.
2. Clean wound daily with mild soap and water and pat dry.
3. Apply a thin layer of petroleum jelly (Vaseline).
4. Apply a Band-Aid that fully covers the wound site or a non-sticky wound dressing such as Telfa with medical paper tape. Do this daily until stitches are removed or the wound is healed.
5. If you have not heard from our office within 2 weeks regarding your pathology results, please call our office.

If you have any questions regarding wound care, please contact our office at 425-454-1104 and speak with one of the medical assistants.
